AFPE FUNDED FELLOWSHIPS AND AWARDS

Pre-Doctoral Fellowship in Pharmaceutical Sciences

The primary goal of the AFPE Pre-Doctoral Fellowship program is to support students who have leadership potential in the pharmaceutical industry, academia, and government. The pre-doctoral fellowships offered by AFPE frequently inspire the direction of our students' careers. Progress in research will require an infusion of new well-trained researchers entering the field.

Dr. Paul B. Myrdal Memorial Pre-Doctoral Fellowship in Pharmaceutics

This fellowship, in memory of Dr. Paul B. Myrdal, is awarded to pre-doctoral and Pharm.D. students who are conducting research in the field of pharmaceutics.

Herb and Nina Demuth Memorial Award

The Herb and Nina Demuth Memorial Award recognizes pre-doctoral students whose research focuses on parenteral drugs.

Pre-Doctoral Fellowship in Pharmaceutical Sciences for Underrepresented Minorities

Awarded to minority student(s) in a graduate PhD program in pharmaceutical science who have potential to contribute to the field and ultimately impact patient and public health.

ASHP-AFPE Pre-Doctoral Fellowship

This fellowship is awarded to students whose research projects focus on improving health outcomes in hospitals, health systems, and ambulatory care clinics.

Pre-Doctoral Award in Health Outcome Disparities

The Pre-Doctoral Award in Health Outcomes Disparities is a designated fellowship for a pre-doctoral student whose research focuses on either a disease area that disproportionately impacts underserved populations or whose research focuses on reducing healthcare disparities and improving health outcomes for underserved populations in the United States. Examples of this research could include sickle-cell anemia, asthma, HIV/AIDS, maternal and infant mortality, access to medication, etc.

AFPE Regional Award

This award is made possible from a bequest and recognizes a pre-doctoral fellow living in Michigan, North Dakota, South Dakota, Minnesota, or Wisconsin.

Phi Lambda Sigma-AFPE Fellowship

Awarded to Phi Lambda Sigma members to encourage the pursuit of a PhD in the pharmaceutical sciences in a college of pharmacy graduate program.

Kappa Epsilon - AFPE Graduate School Fellowship

Awarded to members of the Kappa Epsilon Fraternity to encourage outstanding members to pursue an advanced degree in a college of pharmacy graduate program in the pharmaceutical sciences.

Rho Chi - AFPE School Fellowship

Awarded to members of the Rho Chi Honor Society who have demonstrated high potential for success in a graduate program (PharmD and/or PhD) based on academic achievement, research achievement, and personal achievement.

Gateway to Research Award

The primary goal of the Gateway Research Scholarship program is to improve health outcomes by equipping students with a better understanding of research and enabling them to apply that knowledge to improve their clinical skills.

Underrepresented Minority Gateway to Research Award

This award recognizes a Gateway Awardee who belongs to a racial/ethnic group that has historically been underrepresented in the pharmaceutical sciences.

William M. Heller Mentor of the Year

William M. Heller (Bill) is a dedicated AFPE Fellow, mentor, global visionary, Remington awardee, Harvey A.K Whitney lecturer and, former AFPE board member, and the former Executive Director of USP. Bill has dedicated his career to drug quality and safety. His outstanding skills as a mentor of many AFPE fellows and other students have impacted those who are fortunate enough to have worked with him throughout his career.

The William M. Heller Mentor of the Year is a highly visible award. Mentors are an integral part of AFPE's mission. The Mentor of the Year is given to the AFPE mentor who exemplifies the characteristics of valuing ongoing learning, a willingness to share expertise, exhibiting enthusiasm in their field, providing guidance with respect, and is nominated by AFPE Fellows who have been mentored by the award recipient.

AACP Social and Administrative Sciences Section Summer Research Exchange Mentorship Program

The SAS Research Exchange Mentorship Program is intended to foster interest in research and SAS-related graduate education among student pharmacists. The program is open to P1-P3 students, who complete a research experience with a SAS faculty member outside their home institution, building their professional network and skills for residency, fellowship, and further graduate studies.

Scholarship of Teaching and Learning Grant

The Scholarship of Teaching and Learning Grants (SOTL) sponsored by the American Association of Colleges of Pharmacy (AACP) and AFPE provide research funding for active members of AACP who are engaging in educational research.
